

My dear colleagues,

For the past eight weeks, I have been Yifei Shen's Project Lead for a Project Based Learning (PBL) program in blended reality illustration. In this time, I have grown to appreciate Yifei not only as a student who was a pleasure to teach, but also as an individual with a striking work ethic.

I specialize in the field of media arts and I am very experienced in augmented reality and its related disciplines. During this time, I have come across a wide range of individuals. With them all in mind, I say that Yifei definitely held his own in this challenging PBL program.

Over the course of the 8-week program Yifei had a great deal of responsibility, including working on an augmented reality filter, creating a poster summarizing his work, and presenting his work to myself and other colleagues. I interacted with Yifei on a weekly basis throughout the entirety of the program through online live sessions and offline support, and have witnessed his growth first-hand.

Yifei is definitely a fast learner and worked very hard on creating his AR filter. For someone whose major is related to this course, his performance in the program was very impressive. He has also worked ahead of the course tutorials, showing himself to be a good self-learner.

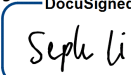

I anticipate that Yifei will leverage the skills and experiences from his time in the PBL in many exciting and fruitful aspects of his life. He expressed desire to contribute to the field of blended reality, and has identified his first endeavor in preparing to do so as pursuing this opportunity. I believe Yifei would be a very strong candidate for this.

It is with great pleasure that I recommend Yifei to you. Please do not hesitate to let me know if I can be of further assistance to you regarding his application. You can reach the PBL team at academic@touchedu.io.

Thank you very much for your time and consideration.
